A Launchpad for pioneering Startups

Innosphere Ventures' Life Sciences Incubator offers an unprecedented opportunity for startups to catapult their innovative life sciences concepts into market-ready solutions. Positioned at the heart of the Mountain Plains region's thriving research environment, our incubator program is a nexus for startups looking to lead in innovation and technology.

We envision the Mountain Plains region as a global epicenter for life sciences innovation. Our mission is to fast-track the commercialization of life sciences products, fostering collaboration and sparking breakthrough innovations in life sciences.

Your path to growth:

Foundation Phase: Solidify your business framework with a robust curriculum designed to crystallize your commercialization path.

Acceleration Phase: Gain momentum through industry-specific training and strategic milestone achievement.

Momentum and Exposure Phase: Showcase your venture at a grand culmination event, opening doors to investors and industry partners.

Benefits of Participation:

Commercialization Expertise: Leverage our track record to navigate the commercial landscape with confidence.

Community and Culture: Immerse yourself in a culture of innovation that celebrates and nurtures diverse perspectives.

Strategic Partnerships: Align with industry leaders and research institutions that will sharpen your competitive edge.

The comprehensive program offers participants access to: Innosphere's 9 month long incubation program for entrepreneurs, which includes personalized support from a dedicated Client Director, who brings an outstanding track record of startup and new product success.

Why join us?

Proven Success: Innosphere's incubation program accelerates startup success through investor readiness, expert advisors, introductions to partners, and revenue growth.

Tailored Support: Benefit from a nine-month, intensive program that offers targeted access to funding, mentorship, and an investor network curated to escalate your startup's growth trajectory.

Day 1 Expert Mentorship: Dedicated Client Directors work closely with founders and CEOs on business milestones.

Network of Excellence: Innosphere's network spans 6 states, 9 universities, and 3 bioscience associations, offering strong life science networking and development opportunities.

Accountability: Operated under a US Economic Development Administration Build to Scale Grant, with a focus on impact and performance.

No Equity Requirement: Innosphere is a fee-based nonprofit organization and does not take equity from companies.

Who should apply?

Medical Device Technology, Health Technology, Digital Health, Advanced Material Science, Veterinary Translational Medicine, Diagnostics and BioPharma
